

[2016 EASPD Project Development Workshop]

The Good, the Bad and the Ugly

Is my project proposal GOOD enough? Is there something BAD when implementing a project that should be avoided? Did you encounter something UGLY that made difficult to reach project objectives? The 2016 edition of the EASPD Project Development Workshop, organized with the occasion of EASPD Annual Conference on Early Intervention, will be dedicated to **project assessment and evaluation**, both at application and implementation stage. The event will offer participants with a practical exercise on how a EU project proposal should and shouldn't look like and do's and don'ts on EU project management. In addition, we will take the opportunity to know about **EU funding streams for EU neighboring countries**.
