

Programme

Inclusive teaching programmes : Let's develop it together!

Venue: St-Virgil Salzburg conference centre, Ernst-Grein-Straße 14, 5026 Salzburg, Austria

Inclusive education is the cornerstone to develop a more inclusive society. This conference will showcase a selection of best practices in developing inclusive teaching programmes for persons with disabilities, and will strive to develop recommendations for policy makers, school administrations and teachers to improve inclusion in education.

The conference programme wishes to be developed with a universal design, and participants can build their own schedule based on their preferences and needs. Twelve interactive workshops where concrete best practices are presented and discussed will be held in parallel to each project panel in the plenary room, and will be repeated four times.

Programme of the plenary room

Sign interpretation in German and real-time transcription in English will be provided during the event

Thursday 22nd October
