

Inclusion in Society by the Arts- Final conference

Context

Launched in 2017, the ISA project aims mainly at promoting non-discrimination and inclusion of people with disabilities by developing innovating initiatives using arts and culture as levers. It also intends at changing the perception that general public can have of people with disabilities by raising awareness especially in learning structures.

The European consortium, composed of EASPD (European Association of Service Providers for Persons with Disabilities), ASBL Horizon 2000 (Belgium), Cope Foundation (Ireland), Hand in Hand (Hungary), NASO (Bulgaria), et LADAPT (France), wished to maintain a project closing event despite the current circumstances. This will provide an opportunity to present the deliverables and the work carried out during the duration of the project.
